

# MIC-MPEG7 MAP

Revision Date: 2004-01-05

micUID	mic data element	MPEG-7 data element	MPEG-7 to MIC	MIC to MPEG-7	Notes
micuc003	orgName	DescriptionMetadata-->Creator-->Agent (type="OrganizationType")-->Name			
micuc004	LocalBibID	DescriptionMetadata-->PrivateIdentifier			
micuc005	PersonalEntity				
micuc006	PersonalEntityName	CreationInformation-->Creation-->Creator-->Agent (type="PersonType")-->Name-->(GivenName, GivenNameInitial FamilyName, FamilyNameInitial, Numeration, DateFrom, DateTo,			Names appear as <i>Family Name, Given Name</i> in MARC \$a in the 100 and 700 fields. Anything after the comma appears in "GivenName" including middle names and initials.
micuc007	PersonalEntityRole	CreationInformation-->Creation-->Creator-->Role			
micuc008	CorporateEntity				All mapped subfields in the 110, 111, 711 and 710 fields should be included in the Agent Name.

micuc009	CorporateEntityName	CreationInformation-->Creation-->Creator-->Agent (type="CorporateType")-->Name			
micuc010	CorporateEntityRole	CreationInformation-->Creation-->Creator-->Role			
micuc011	UnspecifiedEntity	NO MAP			
micuc012	UnspecifiedEntityName	NO MAP			
micuc013	UnspecifiedEntityRole	NO MAP			
micuc014	UniformTitle		No map	CreationInformation-->Creation-->Title (type="alternative")	
micuc015	MainTitle	CreationInformation-->Creation-->Title (type="main") (or blank)			
micuc016	AlternativeTitle	CreationInformation-->Creation-->Title (type="alternative")			
micuc017	RelatedTitle	CreationInformation-->Creation-->Title (type="alternative")			
micuc018	ComponentTitle	CreationInformation-->Creation-->RelatedMaterial-->MaterialType (scheme="ViDe")=component-->Title			
micuc019	SeriesTitle	CreationInformation-->Creation-->Title (type="series")			
micuc020	Date	CreationInformation-->Creation-->CreationCoordinates-->TimePoint			numeric only. Remove copyright
micuc021	OriginLocation	CreationInformation-->Classification-->Release-->Country			
micuc022	Duration	MediaTime-->MediaDuration (default TimePoint 00:00:00)		May be found in parentheses from CarrierExtent	MARC map--300 field \$a information within parentheses. If not in parentheses, DO NOT MAP

micuc023	Type	MediaInformation-->MediaFormat-->Content			
micuc024	CopyType	Map to MediaInformation->MediaIdentification->VideoDomain->Use			Use href="mic". In Phase II, we will develop a controlled vocabulary and map existing terms in the union catalog to that vocabulary.
micuc025	CarrierType		MediaInformation-->MediaProfile-->MediaFormat-->Medium		Every instance requires separate media profile. requires controlled voc
micuc026	CarrierExtent	NO MAP			
micuc027	CarrierNote	NO MAP			
micuc028	PhysicalChar	MediaInformation-->MediaFormat-->FileSize; MediaInformation-->MediaFormat-->VisualCoding-->Format-->ColorDomain; MediaFormat-->VisualCoding-->Frame--Height, Width, Rate; MediaFormat-->AudioCoding-->Presentation; MediaFormat-->AudioCoding-->Sample, Rate, BitsPer			PhysicalChar combines many data elements so cannot round trip to MPEG-7. For clarity, map as indicated
micuc029	MediaSystem	MediaInformation-->MediaFormat-->System			
micuc030	MediaCodingFormat	MediaInformation-->MediaFormat-->FileFormat. MediaSystem-->MediaFormat--VisualCodingFormat.			For clarity, do not map AudioCoding File Format for
micuc031	Note	NO MAP			

micuc032	Contents	NO MAP	NO MAP	CreationInformation-->Creation-->Abstract	Map Contents notes from MIC to MPEG-7 to the Abstract data element, beginning with <b>Contents:</b>
micuc033	Abstract	CreationInformation-->Creation-->Abstract	CreationInformation-->Creation-->Abstract		
micuc034	CreditNote	NO MAP	NO MAP	CreationInformation-->Creation-->Abstract	Map Credit notes from MIC to MPEG-7 to the Abstract data element with <b>Credits:</b>
micuc035	ParticipantNote			CreationInformation-->Creation-->Abstract	Map Participant notes from MIC to MPEG-7 to the Abstract data element with: "Participant or performer note:"+F16+F33
micuc036	AccessRights	UsageInformation-->Availability-->Rights			
micuc037	Language	CreationInformation-->Classification-->Language			issue Convert language name to code
micuc038	LanguageNote	CreationInformation-->Classification-->SubtitleLanguage; ClosedCaptionLanguage	Begin each note with Subtitle: or Classification: depending on MPEG-7 data element	NO MAP	
micuc039	Version	NO MAP	NO MAP	NO MAP	

micuc040	Subject	CreationInformation-->Classification-->Subject	See Note	See Note	MPEG-7 currently only allows a single subject value, so multiple subjects are separated within the data element by semicolon space. Create separate subject data elements for MIC. Collapse MIC subjects into a single data element for MPEG-7
micuc041	Genre	CreationInformation-->Classification-->Genre. CreationInformation-->Classification-->Form			Label: Genre/Form
micuc042	Audience	CreationInformation->-Classification--Target-->Market			
micuc043	CollectionID			CreationInformation-->Creation-->Title (type="alternative")	
micuc044	CopyLocator	NO MAP			
micuc045	DigitalObjectLocator	MediaInformation-->MediaInstance-->MediaLocator-->MediaURI			
micuc046	PortalID	DescriptionInformation-->PrivateIdentifier (scheme="MICPortalID")			
micuc047	Classification	see addendum from LC
