Title: Jonathan E. Rhoads, M.D.

Date: 1977

Place of origin: United States

Language: English

Creation or production credits: National Medical Audiovisual Center, in cooperation with Alpha Omega Alpha. John Z. Bowers.

Abstract: (Critical) Interviewed by his son, Dr. Jonathan E. Rhoads, Jr., this program presents an interview with Dr. Jonathan E. Rhoads, one of American's most prominent teachers of surgery, and his reminiscences over his professional years as well as his many accomplishments. Born in the Germantown section of Philadelphia in 1907, Jonathan, the son of a Quaker physician, was educated there before entering Haverford College. Pursuing his medical career, he attended Johns Hopkins University School of Medicine. A distinguished physician, he became Provost Emeritus of the University of Pennsylvania School of Medicine and was a pioneer in the development of total intravenous feeding/nutrition. He was the recipient of many prestigious awards including the National Cancer Institute Medal and the Medallion of the Surgeon General. An endowed professorship in surgical sciences was started in his name at the University of Pennsylvania Hospital on his 71st birthday. Dr. Rhoad's sense of humor comes through very well and provides for an interesting and relaxing hour of viewing. It is highly recommended for students of surgery.

Note: Rating: Highly recommended.

Note: Review date: July 1979.

Note: Reviewer: Association of American Medical Colleges (AAMC).

Title Aging
Date c1988
Place of origin United States
Language(s) English
Cast George Page
Credit(s) A production of WNET, New York, in association with BBC.
Summary (Producer) This program questions some of the long-held stereotypes about aging and mind. It also explores the diseases of aging including: stroke, Alzheimer's and Parkinson's disease, pointing out that these diseases are quite distinct from normal aging. Viewers watch experiments that prove that even in old age, new brain connections can be formed. Finally, the program focuses on the phenomenon most commonly associated with older minds: the wisdom of the aged.
Note(s) At head of title: The Mind.
Funding provided by the James S. McDonnell Foundation, et al.
Subject(s) Aging
Brain--physiology
